Janatha High School	**May 2017**
SSLC	76.32%

WORK EXPERIENCE

Python Developer intern

BSQ Technologies

- Experience in designing visualization using Matplotlib and saeborn.
- Experience in using various packages in python like Seaborn,Matplotlib,pandas and numpy.
- internship at BSQ Technologies, Mysore.

ACADEMIC PROJECTS

Workflow management of MNC   April 2022

The project ensures an efficient and error-free workflow. It involves three main modules: Admin, HR, and Employees. The Admin gathers project requirements, HR assembles teams based on required programming skills (e.g., Java) and team leaders merge completed work to deliver the project successfully. Html,css and java tech languages are used.

Online quiz Management   November 2023

The Online Quiz Management System simplifies examinations with features like automated grading, result generation, and multimedia-based exams. Built with a PHP backend and MySQL database, it ensures efficiency, data security, and real-time accuracy. Its user-friendly interface supports administrators, instructors, and students, reducing manual effort and enhancing reliability.

Ofline Data Encryption and Decryption   July 2024

This project develops a Java-based file encryption and decryption application using SHA-512 for password hashing and UTF-16 encoding for secure data protection. With a user-friendly interface, it supports various file types like images, audio,vedio,pdf,word, ensuring only authorized access.

PROJECTS

Responsive Personal-Portfolio

- A responsive personal portfolio built to showcase skills and projects.

Tic-Tac-Toe

- Tic Tac Toe is a simple two-player strategy game played on a 3x3 grid.

- Players take turns marking X or O in an empty cell, aiming to align three of their symbols horizontally, vertically, or diagonally.
- The game promotes critical thinking and decision-making, offering quick and engaging gameplay suitable for all ages.

Stone-Paper-Scissor

- The Stone-Paper-Scissors app is a digital version of the classic hand game.
- Players compete against the computer, choosing between stone, paper, or scissors. Stone crushes scissors, scissors cut paper, and paper covers stone, determining the winner.
- The app features an intuitive interface, real-time results, and an option to track scores. It's a fun, quick, and engaging game for players of all ages!
